ANODIZED LOOK

- NEOBOND Anodized Look panels offer a sleek finish and luxurious metal look avoiding the big investments. The Anodized Look panels can add a personality to any surface and are a popular choice for a variety of facade solutions.
- NEOBOND Anodized Look panels are ideal material for creating an elegant appearance and expensive look for any construction providing endless opportunities for designers' ingenious ideas.

-
- Each colour in current colour chart is represented for display purposes only. Please check the actual colour accordance to your project with our sample.
 - Colour differences may occur between panels from different production batches. The entire required amount of material for the project must be ordered as one batch.
 - To avoid differences in gloss and reflection, composite panels have to be installed in the same direction, as indicated by the arrows on the protective film.
 - Product series available as NEOBOND, NEOBOND/FR, NEOBOND/A2 (colour variation may occur between different product types, due to different production processes. It is recommended not to mix different product types, if colour consistency is required).
