URBAN ART

- NEOBOND Urban Art panels are inspired by urban architecture and contemporary urban lifestyle, and can be characterised by its modern look. The Urban Art series include the following textures: Concrete, Corten and Patina Look, which can provide a characteristic architectural solution in urban context. Additionally, those textures can create an extraordinary combination with glass, wood or vintage brick, emphasizing an urban impression of the building.

-
- Each colour in current colour chart is represented for display purposes only. Please check the actual colour accordance to your project with our sample.
 - Colour differences may occur between panels from different production batches. The entire required amount of material for the project must be ordered as one batch.
 - To avoid differences in gloss and reflection, composite panels have to be installed in the same direction, as indicated by the arrows on the protective film.
 - Product series available as NEOBOND, NEOBOND/FR, NEOBOND/A2 (colour variation may occur between different product types, due to different production processes. It is recommended not to mix different product types, if colour consistency is required).
