ZINC

- NEOBOND Zinc Look series panels effectively imitate a beauty of elegant matte surface. Its delicately textured surface is perfect for a close-up visual effects, while creating the refined zinc look from afar.
- NEOBOND Zinc Look panels are ideal for achieving the hi-end looks, elegant tones and bold statements suitable for any architectural visual demand while saving your budget.

-
- Each colour in current colour chart is represented for display purposes only. Please check the actual colour accordance to your project with our sample.
 - Colour differences may occur between panels from different production batches. The entire required amount of material for the project must be ordered as one batch.
 - To avoid differences in gloss and reflection, composite panels have to be installed in the same direction, as indicated by the arrows on the protective film.
 - Product series available as NEOBOND, NEOBOND/FR, NEOBOND/A2 (colour variation may occur between different product types, due to different production processes. It is recommended not to mix different product types, if colour consistency is required).
